Free WiFi on The Big Island

You are here: [Overview](#) > Free WiFi on The Big Island

Vintage Hawaiian Posters

Islandwide Access ([map](#))

Free WiFi access is available throughout the island. Although we try to keep this list up-to-date, it is best to call the establishment to verify the service before popping in with your iPad, iPod, Smart Phone, or laptop.

Of course, free WiFi is never truly free. The owners of these establishments would appreciate your patronage while you are tapping into their wireless connection. And please tell them you learned about their service on BigIslandVacation.com. It won't get you anything extra, but it will make the owners aware that we brought them some business.

Lastly, if you discover a new wireless hot-spot during your vacation, please drop us a note at TheOrchidIsle@aol.com and we will add it to the list.
